

Spiritual Intelligence

with Martin Samson

🕒 Monday 08 July | 5:30PM.

📍 UTS Bld 10, Lvl 5, CB10.05.580.

Using the Theory U process of a deep dive into generative listening – beyond bias, facts and empathy – Martin will take you on a journey to meet your own blind spots to being a listener who can lead facilitate a group into leading out of the future rather than the aged solutions of our past. The theme of spiritual intelligence will provide the grist for us to confront our closed minds, feelings and blocks to action. This will be a space where the content and observation of each others declaration of inner position on the subject can give us a nudge to finding what we need to do to open the mind, heart and will to generate new prototype solutions in community. Spiritual intelligence, along with intellectual and emotional intelligence (to name but a few other layers of our mind body complex) is fast becoming an essential skill set in scientific discovery and social renewal – but, what is it?

This evening will take you on a journey to listen to your own meta-paradigms and hopefully open a few new possibilities about the nature of the world we live and work in.

About Martin Samson

Martin has facilitated groups in creating community, resolving difficulties and building consensus for projects for nearly 30 years. He has taken Open Space Technologies, World Cafe, Courage to Lead, Community Leadership as Martial Art and woven them together with Theory U into an adaptable creative process. At present he is working on his PhD while working at a bookshop. He has recently returned to Sydney and is interested in learning about how we can meet the twenty first century with all of its challenges and changes. Hi work with spirituality is currently focused on ancient and new traditions that give us skills to develop organs of perception for realities beyond three dimensions, or the spiritual senses as they

are known.
